Leading progressive republicans of Lexington and Winchester are organizing Roosevelt clubs and declining to support Taft in November. There are many of the same kind of republicans in Lincoln but most of them do not hesitate to say that they are going to vote for the democratic nominee this fall and so make the defeat of the "convention thief" the more safe and sure.

The Advocate endeavors to discount our statement that Harvey Helm is pledged to the bill the temperance people want, yet it presumes to speak for Judge Sullivan on every proposition, and is openly begging votes for him on the ground that one of its editors will get a job if Sullivan wins.

Simmered down to the final analysis, the only sound argument that the Danville Advocate is able to present why Judge Sullivan should be nominated over Harvey Helm for Congress is that one of the Advocate editors has been promised a job if Sullivan gets over.

All that can keep the democrats from winning this year is for the convention at Baltimore to make a real donkey out of democracy.

The Richmond Climax is claiming 3,000 majority for Sullivan in Madison. From what we hear there, Judge Sullivan will do well to carry it.

Editors Green Clay Walker and Joe E. Robinson, of the Lancaster Record, are fast qualifying for a Resident Secretaryship to Judge Sullivan.

Commendation for Dr. Carpenter

(Courier-Journal)
The health officer of Lincoln county has a clear conception of his duties, and has issued an address to the citizens in which he notifies them of his programme for future action.

Merchants, butchers, bakers and other dealers are warned against exhibiting fruits, vegetables, meats, milk, butter and other entables on the streets without properly screening such articles protecting them from flies and other sources of contamination. Dairymen are informed that they must have their cows inspected and proved free from tuberculosis and that their premises and equipments must be kept in sanitary condition. Bakeries and butcher shops are to be inspected from time to time, and the proprietors of such places are urged to keep their houses in order. Attention is called to the State law against the common drinking cup. Citizens are warned that weeds must be cut and stagnant water "drained and kerosined to prevent breeding places for mosquitos," stables, hogpens, henhouses and other places where flies originate must be made sanitary and kept so.

Evidently the health officer of Lincoln county expects to be a very busy man this summer. He has cut out for himself a large amount of work, but he is proceeding on the right plan, and if the people in his bailiwick will co-operate with him his labors will be lightened and the country will be a better and healthier place in which to live. A vigilant health officer is worth a great deal to a community. His job is largely a thankless one, and if he does his duty fully and conscientiously he is likely to be the recipient of more curses than compliments. A considerable portion of the public is disposed to resent modern sanitary ideas, and until there is more general education along these lines the position of health guardian will be no bed of roses. In the face of these well-known facts it is gratifying to observe that so many of the country health officers are showing a disposition to enforce sanitary laws and regulations without fear or favor.

Our big sale is now on. Prices low on anything. Sam Robinson.

Coleman to Attend U. of Va.

The Danville Advocate publishes a nice compliment to Harris Coleman, who graduated from the High School here this term, and says it is believed that he will enter Central University, and that he will undoubtedly make the athletic teams there. Mr. Coleman, however, will not enter Central, but will matriculate at the University of Virginia, and take a course in law, for which he seems exceptionally well qualified. That he will make any athletic team he cares to try for, is assured.

Jas. M. Boreing Dead.

James M. Boreing, one of the best known citizens of London, died at his home Wednesday afternoon. He had been suffering from ptomaine poisoning, caused from eating lobsters while in Cincinnati last week but the immediate cause of his death was heart failure. Mr. Boreing was the oldest son of the late Congressman Vincent Boreing. He leaves a widow and two children, a son and a daughter.

NATURE'S ESSENCE... Extracted from forest plants.

Nature's laws are perfect, but disease follows if these laws are not obeyed. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of manrake, stone, Oregon grape root, queen's root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have

Doctor Pierce's Golden Medical Discovery. It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alternative of the greatest efficiency and without the use of a particle of alcohol.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Some time ago I got out of health—my stomach seemed to be the seat of the trouble," writes Mr. E. W. WILLIAMS, of Belleville, Kans. "I consulted to doctor with all the doctors at home as well as with other specialists on stomach and digestive organs. None seemed to do any good—in fact, most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Buffalo, N. Y., who replied, stating that I had liver complaint with indigestion and constipation, and advised Dr. Pierce's Golden Medical Discovery and Pleasant Pellets."

"The Discovery and Pellets, have put me on my feet again"—seemed to be just what I needed. I could not have recovered without them."

Dr. Pierce's Pleasant Pellets are for liver ills.

Death of a Good Man

Mr. George McKinney, prominent citizen and pioneer Baptist of the West End died at his home at Hustonville, early this week, death being caused by kidney trouble, of which he had been a long sufferer. Mr. McKinney was seventy-seven years of age and for sixty years had devoted a large part of his time to the promotion of the interests of the McKinney Baptist church of which he had been a member since boyhood.

In the funeral services held Wednesday afternoon the pastor paid a loving tribute to this departed brother, reviewing in part his many Christian virtues. Early in life, Mr. McKinney was wedded to Miss Fair a sister of Mrs. Hoeker of this place. This union was blessed by five children, all of whom are now married and to whom the sympathy of a host of saddened friends goes out in their grief over their recent bereavement.
